WHO WE ARE...

Pan Asia Packing Co., Ltd. has been manufacturing wooden pallets, wooden crates, and processed wood products for the industrial sector since 1996. We are committed to continuous quality improvement, while maintaining a strong focus on environmental responsibility and safety throughout our production processes. Our management system is certified to international standards, including ISO 9001 and ISO 14001, as well as FSC certification and the international IPPC (HT and MB) requirements for wood packaging materials. These certifications ensure that our products meet international standards for efficient transportation and export.

LOCATION

Two strategically located
manufacturing facilities.

QUALITY

All processes comply with
ISO quality standards.

MANUFACTURING

Advanced manufacturing
technology from material selection
to final quality inspection.

CUSTOM MADE SOLUTION

We design products to
meet customer needs.
